We are so excited to meet all of our new second graders at Open House. We are also super stoked to welcome back our incoming third graders! We'll be excited to see how much you all have grown both physically and mentally. Keep reading and practicing your math facts. We have many wonderful things planned for the second and third grades this year. We heavily encourage a partnership between the parents, the students, and ourselves. We believe that the most promising way for children to succeed is to have support both in school as well as at home. We hope to form great relationships with all of you.

About Mrs. Newkirk

I graduated in 2005 with a degree in pre law and business administration. I wanted to make a change and make a difference in the world by becoming an attorney. After being in the corporate world and feeling dissatisfied, I fell into teaching. I realized that being a positive influence in a child's life is the first step to changing the world. I have discovered that teaching is what I truly have a passion to do. I'm so excited about being your reading and writing teacher!

About Miss Townsend

I graduated from the University of Florida in December of 2007 with a degree in History. While I was finishing my degree on-line, I worked as a 3rd grade paraprofessional here at JFK and fell in love with teaching. I have been blessed with the opportunity to work with the students here at JFK for 4 years. This year, I will be teaching 2nd and 3rd grade math, science, and social studies. I cannot wait for another great year to start and for the chance to meet all of you! See you at Open House!
